

Profiled pavement marking tapes with the light-bouncing ridge.

Deltaline® is the original — designed for long lasting reflective performance and dramatically improved nighttime visibility on both wet and dry pavements. The patented retroreflective system utilizes a unique ridged pattern and hybrid ceramic microspheres to guarantee bright, safer lane markings that outlast and outshine all others.

#### Product Benefits:

- Superior reflectivity for the life of the line provided by ridged profile design.
- Superior durability and bead adhesion due to high performance polyurethane topcoat.
- Exceptional nighttime visibility on both wet and dry pavements.
- Greater visibility from all viewing angles.
- The BTR ridged profile design provides superior black out characteristics for all light conditions.

#### Application Benefits:

- Greater performance in extreme temperatures provided by a specially designed adhesive system.
- XRP, HCL and HDX tape can be inlaid while paving due to heat stable raw materials.
- Construction zones may be opened to traffic immediately after application.
- Contractor installation support from a comprehensive field service organization.

#### Material Benefits:

- Weather resistant raw materials provide long lasting color and visibility
- Roll goods available in various widths and lengths, including metric sizes
- Available in symbols, legends and custom orders.

Manufactured in the U.S.A.

del•ta [del-tuh] -noun

1. the fourth letter of the Greek alphabet ( $\Delta\delta$ ).
2. an incremental change in a variable.

**Del•ta-line** – a .6mm surface rise creating superior reflectivity!

### Deltaline® XRP

*Extended reflective performance pavement marking tapes.*

### Deltaline® HDX

*High durability intersection tapes for crosswalks*

### Deltaline® TWR

*Wet reflective removable pavement marking tapes.*

### Deltaline® BTR

*Black temporary removable tapes for masking existing lines.*
